

# My Political Beliefs

Name \_\_\_\_\_

Per. \_\_\_\_ Date \_\_\_\_\_

Politics includes not just your preference for how the government should govern, but how involved they should be in people's economic and personal lives. Do you really know what party you agree with the most? **For each quiz, write your results, with an explanation that may or may not include a diagram.** Explain what those results mean, and why you think you got those results. Or, explain how you think you arrived at that place of economic and governmental thinking. This will be even more educational, and interesting, if you **have a parent, friend, or older sibling take it with or after you** so you can **discuss the issues**.

**Summer Assignment Note:** You do NOT need to print this 2<sup>nd</sup> page. Just print the Front page. You can just write one of these graphs on the back of your paper (you printed out the front page right?), and put your results on the graph.

For the 3<sup>rd</sup> quiz, where do your results fall?
