From Dr. Negrón,

We are experiencing a high number of students who are routinely arriving late to school. Students are expected to be in their respective first block classes at 7:45 p.m. every day. These minutes tend to add up to significant loss of instruction. At the same time, please make sure to schedule your child's appointments during after-school hours. It is imperative that he/she be in school each and every day to maximize learning. If for some reason your child has to be absent due to an illness or the like, make sure to send a written note with him/her upon his/her return to school. Students who acquire more than 20 unexcused absences during the year will not receive credit; thus jeopardizing their ability to move to the next grade level.

From Superintendent Harries,

As we make our way through the autumn months, I want to reach out to you with information about school closings and delays due to snow or bad weather. When declaring snow days my first priority is always student safety. I also consider the importance of having children in school to learn and the reality that many of our parents work and it can be difficult to take a day off to stay home with students.

I also know that timing of decisions matters. When possible, I will make decisions by 8 p.m. the night before. More often, I will make decisions by 5:30 a.m., when it will be communicated immediately online and through TV and radio stations, with Parent Link messages beginning at 6 a.m. The information will be posted on www.nhps.net and on our district Facebook page.
