

The Parent-Teacher-Student Organization Google Classroom

The PTSSO's mission is to promote the welfare of our children through parental communication and participation.

- To endorse the wellbeing of the youth in school, home and the community.
- To bring into closer relation the school and the home, that parents, teachers, students and administrators may cooperate intelligently in the education of the children.
- To develop between educators and the general public such united efforts will secure for every child the highest advantages in physical, mental and social education.

Positive Benefits of Parent Involvement:

It's not just the students who benefit, either; parents, teachers, and schools come out ahead.

Children with parents who are involved in their education are more likely to:

- Earn better grades.
- Score higher on tests.
- Attend school regularly.
- Have better social skills.
- Show improved behavior.
- Be more positive in their attitude toward school.
- Complete homework assignments.
- Graduate and continue their education.

We have set up a Google Classroom for each grade. In this classroom we can communicate during this difficult time. It will be an ongoing connection and forum to create threads of questions and suggestions. This will help bridge some of the communication gaps of this time.

Once we establish a community in the classroom we could have Google Meet Meetings. Each grade level would be able to connect each week or so to stay connected and engaged.

Google Classroom Codes:

9th Grade: uwkvmjd

10th Grade: eqt56yv

11th Grade: spzd52w

12th Grade: 546bohs

Please join your grade level classroom. I look forward to connecting with you.

Thank you for your support!

Blessings,

Mrs. Beaton, Parent Liaison

Hill Regional Career High School
